Complaint Made To Council

Revelry by Night Causes Annoyance to Residents, Who Send Letter to Council.

A meeting of the council held on Tuesday was attended by Councillors Chapman, Haysom, Fred Antrobus, Plante and Allan. Mayor Pattinson was in the chair.

Following the adoption of the minutes, correspondence was read, including a letter from George Evans, residing in the neighborhood of the Italian Society hall, which is let to various organizations for dances. The letter complained of "unnecessary noise after midnight by people congregating in cars outside his residence and other nuisances, which he asked on behalf of others in the neighborhood should be stopped. A warning will be issued and if the nuisance does not cease, more drastic steps will be taken by refusing the hall a license for dance purposes.

Crecent Shows of Penticton sent in an application for license to show on the same grounds as in former years. Owing to complaints of the noise of the mechanical organ which has interfered with the rest of hospital patients, it was decided to refuse the application for the same location, but permission will be granted to show where the noise will not cause annoyance.

Secretary Ford in his report stated that J. E. Poppitt, who in 1927 made the town assessment, was recently in town, and at his request had viewed a residence property on Sixth street, the assessment on which its owner has complained is too high. It has been reduced from the original assessment made in 1927, but still the owner thought it too high. However, Mr. Poppitt reported that he considered the valuation was fair, and was still

Journal In Better Newspapers Competition

At the Canadian Weekly Newspapers Association convention held in Winnipeg, The Journal was entered in the Better Newspapers Competition, which is divided in three classes according to population and circulation. In the class in which it was entered, there were 117 entries, and marks given on the basis of front page make-up, presswork, typography, editorial and local news.

The highest marks awarded any paper were 41 out of a possible 50, and The Journal scored ninth place. The competition calls for front page make-up without advertisements thereon, and as this paper has for years carried a local firm's ad, it appeared on the paper entered in the competition. The judges do not specify ahead which week's paper is to be entered, so there is no chance of specially preparing an entry. They notified publishers during June that the issue of May 28 of this year was the paper to be entered. For having ads. on the front page The Journal was docked five points, while in typography it scored four of a possible five, with the same number for presswork. For editorial it scored 8 points of a possible 10. Local news also scored 8 of a possible ten, while for country correspondence we got a big figure "0" as there are no rural residents to furnish country correspondence.

The purpose of the competition each year is to create an incentive to publishers to maintain a high standard in their publications, and trophies to the winners are presented at the annual banquet following the business sessions of the convention. The Grand Forks Gazette won the trophy for the third year in succession. Mr. Tom Love, mayor of Grand Forks, is the publisher.

Shone at Provincial Tourney

R. Shone will be the lone representative of Coleman at the provincial tennis tournament which opens at Edmonton on Monday, July 20. The Ferris cup, a trophy that ranks second only to the men's open singles and which has reposed in Coleman during the past year in the custody of W. Balloch, will be returned to the tournament committee by Mr. Shone. Neither Balloch nor Roughed will compete in this year's tournament.

UNITED CHURCH

Induction services for the Rev. H. J. Bevan will be held at the United church Friday, July 17, at 7.30 p.m. Everyone cordially invited.

Mr. and Mrs. Joe Jerwa, of Canmore, were the guests of Joe Spievak during the week.

below what for assessment purposes is a fair value. The report for the first six months of 1936 was submitted by the auditor, E. D. Battrum, of Calgary, and showed increased collection in taxes over the same period of 1935, but decrease of over \$500 less in licenses.

The reason of this decrease is that so far this year there have not been so many transient businesses to collect from, and Crecent Shows license was in the first half of last year. Dog licenses also were less owing to a number having been destroyed. A number of milklicenses granted last year were refused this year.

The meeting adjourned shortly after 10 p.m.

SURFACING of roads in town will add greatly to the appearance and eliminate the annoyance caused by clouds of dust from automobile traffic. Already a good start has been made, with good results, on Main street, and a continuance of this works program into the residential section will be warmly welcomed.

Herb. Ott Died After Operation

Seized With Appendix Attack Friday After Completing Work, Passed Away Tuesday.

Herbert Ott, 64 years, employed for over ten years at McGillivray mine, was seized with an attack of appendicitis last Friday evening, and was admitted to hospital where an operation was performed that evening. For a time he showed slight improvement, but about 9 a.m. Tuesday he passed away.

His son Clifford of Lethbridge came up later in the day and arranged for the body to be forwarded to Lethbridge, where burial will take place in his son's family plot at 2.30 p.m. this afternoon, from Christensen's funeral home.

Relatives surviving are his sons Lawrence in Los Angeles, Clifford of Lethbridge and Alfred in California. A brother is living in Bellingham, Wash.

He was divorced many years ago and his wife re-married. Mr. Ott had lived here in company with Mr. John Sneddon in the apartments above The Journal office for four years, and was of a very steady disposition.

The first indication of all not being well with him was on Thursday night, when he complained to Mr. Sneddon of a pain, though he had worked that day.

On Friday he remained in bed, later walking to the doctor's office, where he was ordered to report to the hospital. The operation followed that night, at 11 p.m. He had worked for ten years at McGillivray mine, and his partner during that time was Albert Fry. He had lived in Alberta for many years, originally coming from Ontario, and first settling in Saskatchewan. He also worked at Coalhurst, and with a partner operated a pool room in Lethbridge before coming to Coleman.

Air Conditioning Brings Comfort in Railway Travel

Summer travel on the Canadian Pacific may now be enjoyed in air conditioned cars on trains 3 and 4 from Montreal to Vancouver. Coaches are being fitted as quickly as possible, and their popularity is evident by the requests for reservations, people often deferring their departure a day or two in order to enjoy the advantages of this greatly improved method of travelling across Canada.

With temperatures around 100 degrees outside, inside these cars it is comparatively cool at 70 degrees, besides which there is no dust filtering in through windows and doors, and sleep may be enjoyed as if in a hotel bed or at home. This improvement will be extended to other trains as quickly as possible, and it is reported that the company is trying out five methods of air conditioning in order to adopt the most efficient as standard equipment on their trains.

Result-getting advertising is a steady pull—not an occasional jerk.

Coleman Hold Fernie To 1-1 Tie

In a closely fought soccer game played at the local grounds on Sunday, Coleman and Fernie battled to a 1-1 draw before a fairly large crowd.

Fernie held an early advantage in play and were rewarded when Hughes scored with a hard line drive. Coleman lost the services of McCloy early in the game when he suffered a knee injury. For the remainder of the game only four forwards were used, but despite this handicap the locals forced the play.

In the second half, Coleman continued to apply pressure and at this stage of the game had a wide edge in territorial play. Fernie seemed content to protect their one goal lead and concentrated on breakaway rushes but the local backs and goalkeeper worked well together and kept the visitors in check. At the thirty minute mark, Hastings equalized for Coleman when he scored after accepting a pass from Moore.

This is the second drawn game between these two clubs and the only two points Coleman has gained in the season's campaigning.

Coleman: Ford, Emmerson, Anderson, Ball, Watson, Burrell, McCloy, Moore, Moores, Hulme, Hastings.

Fernie: Oakley, Corrigan, Cox, Becker, Caughlin, Martin, E. Corrigan, Hughes, Wasnock, Bennett, Dawson.

Referee—P. Sharp.

Miss Jean Middleton of Toronto is the guest of Mr. and Mrs. Luke Lindoe.

Miss Shiela Ritchie, swimming instructor at the Girl Guide camp, was met here by her parents, on Sunday evening, and they continued on to Los Angeles, where they will spend their summer vacation.

H. Snowdon Injured In Fall From Roof

While painting the roof of McGillivray Co. offices on Tuesday afternoon, Herb Snowdon fell 30 feet to the ground, sustaining a fractured pelvis, which will necessitate a few weeks rest in hospital. The cleat holding the ladder in position gave way, and with Mr. Snowdon clinging to it, slid off to the ground. By clinging to the ladder his fall was broken, and so saved him from worse injury, as the ladder hit the ground first, and took some of the force of the impact from his legs as he landed. To add to the discomfort and pain of his injury, a can of white paint took part in the fall.

A Family Affair

F. T. Edwards, publisher of the Pincher Creek Echo, has relinquished his duties for three months to attend the Vimy pilgrimage and visit relatives in England. In the meantime Mrs. Edwards, who before her marriage to Mr. Edwards, was publisher of The Echo, has resumed the editorial chair. And here's one of her editorial comments, now that hubby is away: "Politics for a time may have a holiday from this column. Taking them as a whole, 'they are surely the weeds,' and for the present everyone is invited to keep in touch with The Echo with their interesting personal holiday activities."

Weekly Newspapers Are Community Mirrors

A worth-while weekly newspaper is an asset prized by enterprising retailers and business men who take pride in the community and all that pertains thereto. There is no newspaper that so interests local people as their own community newspaper, the mirror of their activities and the recorder of their joys and sorrows.

More Accommodation Being Considered

School Trustees Ponder Erection of New Building on Central School Grounds.

An additional four-roomed building and a staff of 19 teachers is contemplated for 1936-7, an increase of one on the high school staff.

The new building will necessitate an expenditure of about \$32,000 to take care of some of the public school grades now accommodated in small cottage schools, and which will be removed if the proposal under consideration is endorsed by the ratepayers.

Chairman Arthur Reid is in favor of laying the proposal before a meeting of ratepayers. The trustees consider the accommodation is needed, but feel that as a fairly heavy expenditure is required the ratepayers should be given the opportunity of expressing their opinion. It is likely a meeting will be called during August. It would take about four months to erect the building and have it ready for occupancy.

Another Restaurant Opening

Joe Melisky has a barber shop on Main street, and he also has a restaurant in the half of his building. It has also been used as a dry cleaning shop, but he has not been enjoying rental revenue to any extent owing to the brief occupancy of the various tenants who come and go on short notice. However, he is making another attempt and is renting the restaurant to Miss Myrtle Mann, who for six years was in business in Coutts.

Di Gould still leads in the fishing contest at Sam's Service Station with a 2 pound 5 ounce speckled trout.

Home Markets For Local Produce

Assuming that a statement appearing recently in the daily press is correct, it seems as anomalous that a country so well equipped in many sections to produce wool as Canada should have to import that commodity from other countries.

Yet such apparently is the fact if credence can be given to the published assertion of L. R. McGregor of Toronto, Assistant Trade Commissioner for Australia to Canada when he said in a recent interview that "Canada is Australia's third best wool customer."

Not only are the western provinces well suited to wool production, both on large scale on the ranches in southern areas of Saskatchewan and Alberta and in all three prairie provinces on smaller scale from farm flocks, but it is generally conceded by authorities that conditions in these provinces enable Western Canada to produce wool of quality equal to the best anywhere.

Time was, not much more than a decade ago, when a substantial percentage of Western Canadian fleeces were offered to the market in poor condition. The quality often was there but many of the fleeces were greasy, filled with burrs and generally speaking ill prepared for market requirements.

Since that time, however, producers have learned a great deal about the preparation of wool, and the standard of the product has been vastly improved, so much so, in fact, that the unimpaired fleece in shipments for market from the prairies is a comparative rarity today.

That being the case, it can be asserted with confidence that Western Canada can produce sufficient quality wool for domestic requirements in addition to considerable quantities annually for export, and the producer is now complying with market requirements in the preparation of his product.

Why, then, should it be necessary for Canada to import wool from other countries such as Australia and the Argentine? In the light of the facts, that appears an unanswerable question.

Another anomalous factor in the Canadian wool industry is the fact that although Eastern Canadian woolen mills are equipped with machinery to produce tops (wool in a partly manufactured condition) the machines are standing idle while tops are being imported from Great Britain. The reason, it is explained, is because tops can be manufactured more cheaply in England than in Canada. This is a plausible explanation, though the situation is an unfortunate one for this country, when it is remembered that there are plenty of idle workmen still in the East.

The anomalous situation at the production end, however, is one which should lead to some inquiries in the hope that the cause for a country like Canada importing wool can be discovered and, if feasible, rectified.

The statement made by the assistant trade commissioner for Australia engenders the thought that possibly there is room for considerable development of the domestic market for other Western Canadian agricultural products, and inspires the question whether everything that is possible is being done to ensure absorption of home products in local markets to the greatest possible extent. If other agricultural products are subjected to competition of similar imported commodities, it is a very unfortunate thing for the producers, and especially is this the case at a time when farmers are turning to greater diversification because they are forced to it by the European wheat situation.

Perhaps the solution to the problem of finding wider domestic markets for home grown products lies in the laboratory and this is a question worthy of investigation by farmer organizations, boards of trade and similar institutions and the government.

There are men today working quietly in private laboratories seeking means to extract by-products from wheat and other agricultural products, of which Western Canada has a great abundance, capable of conversion into fuels, clothing and other necessities and there is no doubt there is great opportunity for more research work along these lines.

The work of some of these men leads to the belief that therein may lie at least a partial solution of some of the west's agricultural problems. It is stated, and not without authority, that the secret of the manufacture of some of these commodities on a commercially feasible basis, has been wrested from test tubes and retorts and other paraphernalia of chemical and electrical engineering laboratories, and that all that is needed to make them a marketable reality is the necessary capital. Where this is to be found for such projects is another question.

Great Change Taking Place

Women Drifting Away From Kitchen Work Survey Shows

The average American woman is drifting further from her traditional place in the kitchen, according to a survey made by Quax, an honorary scientific fraternity for women at the University of Pittsburgh.

The scientific co-ed came to their conclusions while studying problems encountered in a quest of employment. Their detailed survey represented an effort to clarify and classify the many-sided difficulties in job-seeking and their relationship with the university graduate.

Interviews, letters and telephone calls to and from a thousand personnel directors of business organizations and public institutions revealed that many positions are waiting for trained women.

Opportunities are available, it was found, in a wide variety of business, educational and scientific spheres. Almost every branch of city, state and federal departments indicated that women, especially those trained in science, are needed.

The many possibilities included almost every phase of activity except that centred by the kitchen. The fate of the family's meals, it was indicated, is facing highly uncertain times.

Extension Of Trade

Says Canada Should Co-operate With The Rest Of The World

Canada's aim should be greater development of trade with Great Britain, Hon. G. H. Ferguson told the Galt Kiwanis Club.

While advocating extension of trade, the former high commissioner to London said Canada should follow a policy of isolation. Canada should co-operate with the rest of the world for its betterment and advancement. Britain has the greatest market in the world and the Dominion should capitalize to the fullest extent on this fact, he said.

The speaker predicted the Dominion would soon be a dominant trade nation once again and said the close connection between Canada and Great Britain has been an immense advantage. He paid tribute to the foresight and purpose of the fathers of confederation who were "not dreamers but practical builders."

Drouth Stricken Areas

To Expand Drouth Rehabilitation Work In The West

Under the impetus of extension of drouth-stricken areas in Western Canada the Dominion government has decided to expand its drouth-rehabilitation work in the west.

Hon. J. G. Gardiner, minister of agriculture, said financial assistance would be given farmers in digging of "dugouts" or reservoirs of water for stock. This decision means assistance will now be given to all water conservation projects.

The basis of assistance to dugouts is three cents per cubic yard of dirt moved up to a maximum of \$50. In all cases the government provides engineering advice and all assisted projects must be approved by engineers.

Assistance on the same basis is provided for the construction of small dams.

Great Difference In Weight

Small And Large Parcels Sent Recently By Air Freight

Contrast in United States air freight traffic was shown the other day when a parcel weighing only two ounces and another weighing 500 pounds were transported.

The two-ounce package was a single false tooth the owner had left behind in a hotel bedroom, afterwards wiring an urgent message to have his forgotten "filler" rushed to him. A mining machine crankshaft made up the 500-pound "parcel."

Another strange consignment was sent by a surgeon in Mexico. It was a tiny piece of living tissue and was rushed to New York for analysis. Laboratory workers carried out their tests and results were telegraphed to the surgeon.

Coronation Plans

Duke Of York Heads Committee In Charge Of Arrangements

The Duke of York will head the committee in charge of plans for the coronation next May 12, The London Gazette announced.

The committee includes Prime Minister Baldwin, the Archbishop of Canterbury and York, Chancellor of the Exchequer Neville Chamberlain, the Earl of Athlone, Sir Samuel Hoare, David Lloyd George, Winston Churchill and Sir Austen Chamberlain.

Tragedy In Northern Seas

Russian Scientists Succumb To Cold And Hardships

Twenty-year-old Ian Krushoff related the story of a grim voyage through the wild and icy waters of the White sea with a cargo of 10 dead men.

Krushoff was the lone survivor of a party of 12, all members of a scientific expedition. He reached safety in a lifeboat loaded with the bodies of 10 of the others. The 11th was not recovered.

The 12, headed by the hydrographer, G. Bardinnoff, left the expedition's steamer Toros on June 27 in a small boat to make a study of the depth of the sea between Archangel and Kandalaksha bay, on a route crossing the Arctic circle.

"After three days' work," said the youth, "we decided to return to the ship."

"We were caught by a storm. Mountainous waves capsized the boat and swept away the oars, equipment and our comrade Nikolai Fedoseyeff, whom we never saw again. Struggling in the water, the rest of us with great difficulty managed to right the boat and climb in."

"Then for a day and a night we were the prey of a furious sea. 'We had no oars,' we tried frantically to row with our hands. The boat constantly shipped water. We scooped it out with our hands and our caps. It was horribly cold. One after another, my companions died of exposure and exhaustion until I was left alone with 10 bodies."

"The sea grew rougher, and it was only by trying my right wrist to the oarlock that I was able to stick to the boat."

From Siam To Surrey

Ex-King Prajadhipok Has Settled Down In England

Ex-King Prajadhipok of Siam has just moved into his new home, on which he spent \$100,000 in improvement in Surrey, England. It is a red brick house, standing in 15 acres of gardens, and it has four, reception rooms, 12 bedrooms and six bathrooms. Every one of the rooms has been specially designed and furnished.

The dining-room is in early Queen Anne style, the drawing-room in late Queen Anne. The other rooms are more modern. A motion picture theatre has also been built in which the family entertains visitors. Prajadhipok buys the latest talking films, and favors American gangster pictures.

SELECTED RECIPES

BANANA CAKE

1/2 cup butter
1 cup white sugar
2 eggs
4 tablespoons sour milk
1 teaspoon soda
1 1/2 cups Purify Flour
2 teaspoons baking powder
1/2 teaspoon salt
1 teaspoon vanilla
1 cup mashed bananas
Method: 1. Cream butter; add sugar. 2. Add well-beaten eggs. 3. Add bananas and vanilla; beat well. 4. Dissolve soda in milk. 5. Sift flour with baking powder and salt and add, alternately, with milk to mixture No. 3. 6. Bake in loaf tin 50 minutes in moderate oven of 350 degrees.

Emigrant: (Writing back home) "And all the way across the long train journey was so tiresome that one man kept shouting at every stop 'Bored, Bored.' We were too—but we didn't say nothing."

Tall men live longer than short men, thin men longer than fat, married men longer than bachelors, and vegetarians longer than carnivorous men, according to statistics.

The word rosary is derived from the Latin rosarium, which was originally a garland of roses and used to crown the image of the Virgin Mary.

House Flies Breed In Garbage

Dangerous Disease Carriers Menace To Public Health

For many years public health efforts have reduced the scourge of typhoid fever and many other dangerous, contagious diseases by government enforced legislation in respect to the inspection of cattle, milk-pasteurization, the chemical purification of suspected water supplies, and the elimination of many other known breeding sources of disease. But little has been done officially about the common house-fly. Each summer it infests the land wherever mankind exists. It is borne and bred in rotten animal or vegetable matter, lives on filth and refuse. It carries germs of infectious diseases into the home endangering the health of everyone, from the defenseless baby in its crib to the elders of the house who relish the tasty salad upon which a fly may have recently been feasting and spreading disease germs that have accumulated on its hairy legs.

Public spirited citizens should fully realize the seriousness of this menace and take measures to check it. Searching out hidden unsanitary fly breeding places, keeping homes well screened and foods covered at all times are important. But the quickest and simplest method of killing all flies is to place a few saucers of Wilson's Fly Pads around the house. They will attract the flies and kill them all in a few hours.

The Court Of Claims

Begins Its Sittings After Coronation Dale Is Set

After the Coronation date is set, the strangest Court in the world begins its sittings in London. The Coronation proclamation set up the Court of Claims. It considers pedigrees and hereditary rights to serve the King in person.

Some claims which have come before the Court are:

To support the King to the altar.
To carry the Great Spurs (part of the Coronation regalia).
To carry the Cap of Maintenance.
To drink the King's wine as a guard against poisoners.

To have the bed which the King sleeps on the night before he is crowned.
Three claims which are likely to be allowed are those of:
The Earl of Shrewsbury, as Lord High Steward of Ireland, to carry a white wand as symbol of his office.
The Baron of the Cinque Ports to hold a canopy over the King's head at the Abbey.
The Lord of the Manor of Work-sop to present to the King a pair of fine gloves.

Plan Crime Hospital

Scheme Is Suggested By Several Prominent British Physicians

A movement to found a "crime hospital," where criminals may be sent for psychological treatment instead of being imprisoned, has been launched by Lord Dawson of Penn and several other prominent British physicians and psychologists. Officials of the home office are said to be in sympathy with the scheme, which they believe may lead to revolutionary changes in the state's attitude on crime. An appeal for \$50,000, with which to build a clinic in London, is being made.

Plan Huge Liner

New Vessel To Be Longer And Larger Than The Queen Mary

Preparations for constructing a bigger and faster companion to the S.S. Queen Mary were begun tentatively on the Clydebank. In shiping circles it was said the liner, if constructed, would probably be christened the King George V.

An official order for the construction still is awaited. It was suggested the projected liner would have a tonnage of about \$5,000 as compared to the \$3,773 of the Queen Mary.

An official of the John Brown Company which built the Queen Mary for the Cunard-White Star Line said: "We are almost certain to be given a tender almost to have not received an official confirmation of the order."

The company had expected to receive an order for a battleship, but it was understood the admiralty work would be spread instead to other shipbuilders in North England to leave the John Brown Company free for the liner.

Cunard-White Star officials have been inspecting models of the proposed liner while experts have produced altered and refined engine designs.

A Brown official said, "The new ship will be larger than the Queen Mary and faster."

It was understood that present plans call for a longer ship with greater passenger accommodations.

The ship, it was said, would probably be placed in commission in 1938.

The Left Turn

Care Should Be Exercised In Making Turn At Road Intersections

A well known writer has estimated that a large proportion of auto accidents are caused by neglect of drivers to observe ordinary care in making the left turn at street and road intersections. The following points are noted:

If you desire to turn to the left do not approach the intersection on the extreme right of the street or highway but keep close to the centre of the road. If you approach on the extreme right you may turn to the left just as another car is coming up on your left.

Do not turn to the left close to the centre of the intersection but continue across the intersection until you are almost directly opposite the right side of the intersecting road or street, then turn to the left. If you turn to the left at the centre of the intersection you are in danger of meeting, head-on, a car coming up from your left.

Be sure to give the proper signal a reasonable time before you come to the intersection so that cars coming from behind are prepared for what you intend to do.

Even if the road or street is not marked with a strip up the centre, there are two imaginary strips on every road and street—the right and the left. On every right or left strip there are one, two or even three lanes. Keep on your own strip and in your own lane is the best advice possible to avoid accident.

Old tramcar bodies, discarded in favor of trolley-buses in various parts of London, can be bought at the depot for \$10 each; carting them away is the real expense.

Thanks To Stamp Collectors

Heavy Purchases Financed Trip Of Driftable Around World

It was stamp collectors' heavy purchases of Hindenburg commemorative stamps that made the recent flight of the big driftable to this country possible, Dr. Hugo Eckener told an audience of New York stamp collectors.

The famous designer said that seven flights were paid for only with the help of the stamp collectors and that they paid the heavy expenses of the famous trip around the world.

Explorers and pioneers in transportation of all sorts have a source of support in the stamp collectors of the world these days, and the collectors welcome the chance to share in the expense of a new commemorative cover, suitably marked, for such a thing can never be duplicated, and is likely to increase in value. What a help a few thousand stamp collectors would have been to Columbus! — Fort Arthur News-Chronicle.

Expert In X-Ray Work

People Owe Heavy Debt To Skill Of A Woman

Every war veteran whose life was saved by X-ray location of a bullet in his body, every civilian whose hidden abscess beneath a tooth has been found by X-ray, owes a debt to the skill and devoted efforts of Elizabeth Fleischman Asheim. This woman, who has been called an American Joan of Arc, was not a physician but a doctor interested in X-ray work through a doctor brother-in-law. She took a course in electrical science, bought X-ray apparatus and fluoroscope, rendered valuable aid to the Army during the Spanish-American War, and showed by the excellence of the diagnostic X-ray pictures she took how much X-rays could add to military surgery. After the war she saw the possibilities of X-rays in dental work and was busy with this for the few remaining years of her life.—Quebec Chronicle-Telegraph.

A music-hall magician opens his act by guaranteeing to tell the exact age of any lady in the audience. The remainder of his turn is quite popular, though.

Church is the only place you have to be early to get a back seat.

And the darkest hour is just before the dawn. 2139

WHOA! GIDDAP!
Even a good horse would be likely to do as it pleased if two equal owners on the driver's seat shouted contrary instructions.
Some of Prime Minister Mackenzie King's own party men are shouting Whoa! and some Giddap! Bystanders who think that he has a lot of horse sense are watching interestedly.
How far will he go in nationalizing the bank of Canada? Some claim that the government could operate the bank in such a manner as to "level up prices" and decrease the load of debt and fixed charges.

THE COLEMAN JOURNAL

H. T. Halliwell, Proprietor.

Published Every Thursday at Coleman, Alberta. Membership in Canadian Weekly Newspapers Association and Alberta Div. C.W.N.A.

THURSDAY, JULY 16, 1936.

NOTES AND COMMENTS

NEWSPAPER MEN representative of Canadian weekly newspapers in the nine provinces and Newfoundland gathered last week at the Fort Garry hotel in Winnipeg for their annual convention, to discuss and exchange ideas with a view to improving their service to the communities in which they are published.

A MOST CORDIAL reception was accorded them by the government of Manitoba, the City council and Board of Trade of Winnipeg, and considerable space was given in the daily newspapers of the city, together with interesting photographs, on the proceedings. It is worthy of note that the most colorful speaker at the social functions of the convention was a former Albertan, L. W. Brockington, K. C., former city solicitor of Calgary, now resident in Winnipeg. He is acknowledged as probably the most vivid and interesting speaker the west has heard in many a day, and fills an important place in one of the large grain concerns of Manitoba and the western provinces.

ANOTHER gentleman who took part in the reception of the newspapermen, and well known in this area, was Mr. C. E. Stockhill, president of the Winnipeg Board of Trade, and who has charge of the fuel purchasing department of the Canadian Pacific Railway. He was recently in the Pass on his return from Honolulu with Mrs. Stockhill, where they had been spending a vacation. It is worthy of mention that both the senior and junior sections of the Board of Trade placed cars at the disposal of the delegates and their ladies for drives to important buildings and to the city's beautiful parks, including an afternoon tea at Lower Fort Garry for the ladies. This interesting historical spot, about 20 miles from the city, is reminiscent of the early days of Red River settlement, and the Gentlemen Adventurers of Hudson's Bay, later known as the Hudson's Bay Company, which lately featured its 262nd annual sale.

ANOTHER interesting speaker was Mayor John Queen, now serving his second term. He carries the impression of utmost sincerity in his efforts to alleviate the problems arising from unemployment, and intersperses his more serious moments with droll Scottish humor. Many will recall that in the O. B. U. strike of 1919, he was one of several who were jailed as being violent agitators, and which led to the inserting of the famous Clause 98 in the Criminal Code of Canada. Responsibility of city government doubtless had modified his one-time revolutionary ideas, nevertheless he commands a very wide measure of public support and was accorded a very big majority in his last mayoralty contest.

DR. J. W. Daeoe (do not confuse him with the famous Quints) who is termed the Dean of western journalism, though 70 years of age, appears as stalwart and vigorous as a man half that age, and Mr. Brockington, in referring to his long service to the people of Manitoba through his paper, the Winnipeg Free Press, stated that he believed he would go on so indefinitely that they would have to shoot him on the resurrection morning.

DELEGATES were rather disappointed in not hearing Premier Bracken, but whose place was taken by Hon. Mr. McDiarmid, minister of mines. Mr. Bracken has been having a hectic time, dodging some of the more aggressive labor advocates, who have encouraged picketing at the Parliament buildings, and the steps of which were thronged daily with unemployed, despite the heat. Tim Buck was announced to address a meeting on Sunday evening on the legislative building grounds, but the writer, much as he would have desired, was unable to stop over and hear him. Their action is embarrassing to the provincial government, who urged people, through the newspapers, not to gather at the Parliament buildings for this meeting, as their patience was becoming sorely tried by persistent picketing and annoyance.

THE BUSINESS sessions of the convention proved that weekly newspaper publishers across Canada are consistently striving to improve their services as "purveyors of local news" and to take a leading part in all worth-while community activities. In the "Better Newspapers Competitions," in which newspapers are classified according to circulation and population of the towns in which they are published, nearly 200 of Canada's 700 weekly newspapers were entered, and in which The Journal was awarded ninth place in its class. These competitions create an incentive towards publishing better weekly newspapers, and interest increases each year. Handsome trophies are given to the winning papers, and Tom Love, publisher of the Grand Forks Gazette, [B. C.] was successful in being awarded the trophy for the best paper in the class in which it was entered. It was his third victory in this competition.

1871 65th YEAR 1936 of Confederation Life

Security and Stability
For Policyholders and
Beneficiaries
Representative:
H. G. CHARMAN, C.L.U.

LAST YEAR the president of the Association was Charles A. Barber, publisher of the Chililiwak Progress, B.C., and who was also a delegate to the Imperial Press Conference in South Africa. He has given a great deal of time to Association affairs during his year of office, and has received valuable help from his wife, who edits a woman's section of their paper, and who also takes a very active part in Women's Canadian Clubs. Both were the recipients of presentations at one of the banquets.

THOUGH eastern Canada has the largest number of members, the presidency again goes to a western editor, Leslie Bennett, of Carman, Man. The energetic secretary-manager is C. V. Charteris, of Brampton, Ont., and under the direction of himself and past president Barber, the past year has seen a much keener interest awakened in the association, not only among the members, but among provincial governments and other public organizations.

THE WEEKLY NEWSPAPER (Huntville, Ont., Forester)

The president of a great metropolitan French daily paper told a group of weekly newspaper publishers recently in Montreal that the "country weekly" was a powerful medium in community building, and a strong influence in local, provincial and national affairs, even to a greater extent, he thought, than the large city dailies. The mayor of Canada's greatest city—Montreal—who had given up important engagements to attend a luncheon with the "country" editors, made this observation: "You editors control a powerful weapon. Your local newspapers give you a most potential source of strength and leadership in public affairs. No other instrument—not even the metropolitan daily—has the same power in shaping the destinies of Canada as has the thoroughly read weekly newspaper." The president of one of Canada's greatest insurance organizations welcomed the weekly editors as the "moulders of public policies."

These tributes are recorded here, not in a spirit of boastful pride in their high origin, but because they indicate a growing recognition of the important functions of the local newspaper. These are the opinions of men who, but a few years ago, would have hesitated to acknowledge the local paper's sphere of influence as extending beyond the strictest limitations of its local environs. Local newspapers, taken as a whole, have, in late years, reached a standard far in advance of the day when they were regarded as merely the purveyors of local gossip, and the legitimate target for local ridicule. Today they are giving their communities not only a news service of great interest and value, but they are giving editorial expression on thoughtfully considered public questions, which, taken collectively, is reflecting the drift of public opinion throughout the country, and is influencing legislative bodies more, perhaps, than any other medium. "Give me the chance to know what the country editors are saying, and I'll venture to tell you what is in the minds of the masses of the people," recently remarked a well-known public man. The growing admiration for the local newspaper by shrewd far-seeing men, within our cities, who are close to the pulse of national problems, is too often wanting among local citizens, whose intimacy of contact with their local newspaper, is not to blind their eyes to its real place of value in their community. Appreciation of its contribution to community welfare would be expressed more readily if its functions were to cease.

Why not let others share their goodness and also help bear their original cost.

With Charlotte Acres Orchestra

Ozzie Ross and Phyllis Bolton, young, attractive Pacific coast radio network stars and featured members of the Charlotte Acres Orchestra, who will "do their stuff" at the second and final Sunday concert of the Charlotte Acres dance band to be held at Cole's Theatre, Bellevue, Sunday, July 26. Over 100 people had to be turned away when this troupe put on their first concert at Cole's Theatre late last June.

Wm. Bell Injured in Car Smash

Returning from the Kimberley Lethbridge football match at Lethbridge, early Friday morning, July 17, William Bell, of the Grand Union hotel, driving a Hupmobile car, went into the ditch this side of Pincher. With him were John Bell, in the front seat, and Sam McDonald, lying in the back seat. Mr. Bell suffered a wrenched back and a broken wrist. The Greyhound bus coming west picked them up and Mr. Bell was immediately placed in hospital on arrival in Coleman. The car was left lying upside down in the ditch.

THE SALVATION ARMY

Regular services will be held at the Salvation Army next Sunday, 10.30 a.m. Directory class. 3 p.m. Sunday school. 7.30 p.m. Salvation service, to which all are heartily welcomed. Young People's meeting every Friday at 7.30 p.m. Meetings of the Ladies Home League will be resumed next Tuesday at 7.30 p.m. in the Salvation hall.

Local News

Steve Ondras has been appointed teacher at Burmis school.

"Bill" Fraser is spending two weeks holiday in Vancouver.

Miss Dily Brown has returned from Holy Cross hospital, Calgary.

B. P. McLeod is relieving at the Liquor store while Mr. Davidson is on vacation.

Miss Lucille Le Page of Edmonton has taken charge of Graham's Beauty Parlor.

Miss Yuill left Sunday for a vacation at Los Angeles where she will visit her sister.

Miss Adela Pollock of Trail, B.C., is visiting her grandparents Mr. and Mrs. Joe Kwasnie.

Mr. and Mrs. W. S. Purvis are spending two weeks holiday at the coast visiting Mrs. Purvis' parents.

Mrs. K. Kilgannon left on Monday of last week for Columbus, Ohio, to visit her daughter, Mrs. Phillip Wagner.

Mr. and Mrs. John Atkinson, Jonty, Marie and Graham, motored to Calgary on Saturday to take in the last day of the Stampede.

Miss Margery Halliwell of the post-office staff left on Wednesday evening for Coeur d'Alene, Idaho and Spokane for two weeks vacation, in company with friends from Trail, B. C.

Miss Jean Pattinson, accompanied by Miss Alice Robinson of Hillcrest, attended the wedding of Miss Muriel Lancaster to Mr. Lloyd Carruthers of Brocket on Wednesday.

Mr. and Mrs. George Brown, and the parents of Mr. Brown, of England, who have been visiting them for some weeks, left on Tuesday night for Vancouver to spend three weeks holiday.

Mr. and Mrs. T. Higginbottom were Calgary visitors on Monday of last week. Miss Gladys Higginbottom returned with them, having completed a year's teaching in the Youngstown district.

Misses Helen Nash and Nora Easton returned Sunday after a weeks holiday at the Calgary Stampede. While there they were the guests of the latter's grandparents, Mr. and Mrs. R. Easton.

Two of West Coleman's popular young people were united in marriage on Thursday at St. Alban's church when Marjorie Johnson became the bride of Mr. W. Kubica. Rev. A. S. Partington officiated at the ceremony.

H. G. Charman and family of Calgary, accompanied by Mr. and Mrs. A. T. Jones and family, arrived at the lake Sunday evening where they will spend several weeks. Mr. Charman is well-known locally having been here last year for Confederation Life Insurance.

Celebrate 50th Anniversary

Featured by a congratulatory telegram from His Majesty King Edward VIII, and in the presence of dignitaries of the state, outstanding members of the business and social world, railway officials and several thousand citizens, the Canadian Pacific Railway on Sunday, June 28, celebrated the 50th anniversary of the departure of the first transcontinental passenger train, from Montreal to the Pacific Coast. The first passenger train to cross the continent, entirely in Canada, left Montreal on June 28, 1886, amid the acclaim of the entire nation.

The royal message, which was the highlight of the enthusiastic anniversary celebration on June 28, was as follows: "I sincerely thank all those associated with the Canadian Pacific Railway Company for their loyal assurances on the occasion of the Fiftieth Anniversary of this great Railway which ever since its inception has played so notable a part in the development of the Dominion of Canada." Transmitted to the company in the name of Sir Edward Beatty, G.B.E., K.C., LL.D., chairman and president, by His Excellency Lord Tweedsmuir, the Governor-General of Canada, it served as the spark to fire the enthusiasm of the notable assembly of several thousand at Windsor Station.

The programme, colorful and impressive, was broadcast on a coast-to-coast network of the Canadian Radio Broadcasting Commission, and was completely recorded in still and moving pictures. In addition to the message from His Majesty and the military ceremonies, it included a message from Sir Edward Beatty, G.B.E., K.C., LL.D., chairman and president; addresses by D. C. Coleman, vice-president of the company, His Worship Mayor Camillien Houde of Montreal, Hon. Marguerite Shaughnessy, who is daughter of the third president Lord Shaughnessy, P. M. B. Roberts of the Edinburgh Scotsman, D. D. Braham of the London Times and others. Mrs. Camillien Houde, Mayoresse of Montreal, cut a birthday cake six feet in diameter and nine feet tall. The Victoria Rifles of Canada, which supplied the Guard of Honor when the first train for the Pacific left 50 years ago, again supplied the Guard of Honor under Colonel I. W. Eakin. The band of the regiment, in addition to its concert music, played God Save the King as the Guard presented arms when the anniversary train pulled out. The long association of the Company and the Royal Canadian Mounted Police was recognized by Canada's great force. A detachment of the Mounties took part in the ceremonies, and added a touch reminiscent of prairie and mountain construction days.

The celebration was continued at Ottawa and all main-line points west to Vancouver and thousands came down to the suburban stations to catch a fleeting glimpse of the decorated anniversary train.

The Local Weekly Is Best

WITH ITS weekly record of worth-while news, its advocacy of every worth-while movement, its general interest to the community, and the eagerness with which it is read, not only by local people, but by many much further afield, makes it a desirable medium for general advertising.

QUALITY IN ADVERTISING counts as in everything else that is sold. It is a service which must produce results to be mutually profitable. The paper which goes into the homes, and is read thoroughly by the entire family, is an efficient advertising medium. It reaches the best class of buyers, the potential customers of all local stores.

WELL WRITTEN and typographically displayed advertisements attract the eye and create a favorable impression. Journal advertisements make the strongest appeal to the eye and attract business.

Mrs. White of Pincher Creek, is the guest this week of her daughter and son-in-law, Mr. and Mrs. W. Read.

Colemanites seen at the Calgary Stampede last week were: Mr. and Mrs. H. Chamberlain and son; Mr. and Mrs. J. Ram say, Isa and May; Mrs. A. An-

derson and son, Billy; Mr. and Mrs. Geo. Neil; Mr. and Mrs. A. Hughes; Mr. and Mrs. W. Clarke; Margaret Bell; Mamie McLellan; Mack Hall; Harold and Jackie Nelson and Alex. Kapalka.

Mrs. W. L. Rippon entertained at tea on Tuesday afternoon in honor of her sister, Mrs. F. Craib,

of Hanna, who with Mr. Craib and family is spending a holiday here. Mrs. McBurney poured tea, assisted by Mrs. Albert F. Short and Mrs. Norman McAuley. The tables were nicely decorated with summer flowers, and many ladies from Coleman and Blairmore attended.

WORLD HAPPENINGS BRIEFLY TOLD

More than 3,500 school children in the unorganized districts of Manitoba had their teeth fixed during 1935 by travelling dental clinics.

A super-silencer, which can be fitted to aeroplanes, motorcycles and buses has been invented to eliminate street traffic noise.

Elsie Janis, actress and "idol of the army" during the Great War, has announced her intention of giving up all her "worldly possessions" and devoting her life to charity.

Hope that in another five years Canada's annual gold production would reach \$200,000,000 was expressed at Sault Ste. Marie, Ont., by Hon. T. A. Crerar, Dominion minister of mines.

The Soviet government has presented an official demand to Japan to call a halt to poaching by Japanese fishing vessels in Soviet waters off the Kamchatka peninsula in far eastern Siberia.

A portion of the remains of a giant mastodon which named this country about 3,000,000 years ago, has been unearthed on the estate of Conrad J. Osman, near Hillsboro, N.B.

Order-in-council published in the Alberta Gazette carries revisions to the Optometry Act, ordering that optometrists cannot offer free examinations of eyes, engage in misleading or price-referencing advertising, or offer premiums or refunds.

The government icebreaker N. P. McLean has left Quebec for her annual voyage into the north, where she will guide freighters in and out of Hudson's Straits. Before entering the straits, the vessel will be used for survey work around the Straits of Belle Isle.

One of the largest consignments of butter ever routed via Vancouver was recently shipped from Alberta and Saskatchewan. The shipment totalled 794,000 pounds, was packed in 14,000 boxes and to transport it 25 railway cars were required. It will be sent to Great Britain.

Butter Awards

Biggest Creamery Butter Show Ever Put On At Calgary Exhibition
Manitoba and Alberta creameries furnished the competition in the biggest creamery butter show ever put on at the Calgary exhibition. Awards released show Manitoba creameries taking 29 prizes for butter made in May—four firsts, 18 seconds and seven third group prizes—against 27 taken by Alberta creameries—six firsts, 17 seconds and four third group placings. There were 60 prize winners in this class. For June butter there were 83 winners listed, with Manitoba having 39—six firsts, 25 seconds and eight third group prizes—and Alberta 36—eight firsts, 28 seconds and no third group prizes. While there was no sweepstakes award an Alberta creamery, the Stetler Creamery, had a score for the two classes of 193.9 to stand high. The St. Lazare Creamery, of St. Lazare, Man., and the Northern Alberta Dairy Pool, Wetaskiwin, tied for second place with 193.8. Saskatchewan, B.C. and Quebec dairies had a few entries. Mrs. H. C. Taylor, Headingley, won the dairy butter class.

Soviet Newspapers

More than 10,000 newspapers in 86 languages are published in the Soviet Union. This aggregate circulation reached 37,000,000 copies in 1935, whereas this year it increased to 39,000,000 copies. Books and magazines are now issued in more than a hundred languages.

Elephants cannot trot or gallop. A walk and a shuffle are their only gaits.

U.S. Drought Conditions

Underground Water Supplies Shown To Be Seriously Lowered

Reports that the drought had seriously lowered the underground water table, an important source of moisture, prompted the United States geological survey to begin an intensive study of fluctuations in the Dakotas, Montana and Wyoming.

George Farrell, western regional A.A.A. director, said on his return to Washington from an inspection tour of the parched area, that there had been a very serious drop in the water table. Work projects for distressed farm labor contemplate a system of small dams which will do a lot of good in conserving surface water.

There were unconfirmed reports that over-pumping of water and irrigation had sunk the water table below the point of capillary attraction to the root zone in some sections.

Oscar Meinzer, the geological survey's authority on underground water supplies, said field men in the drought area had been instructed to co-operate with army engineers in studying fluctuations.

Approximately 15 papers prepared on the subject for the American Geophysical Union, he said, had been sent to the government printing office. They are expected to disclose whether surface reservoirs may have to be constructed because of a decline in underground water supplies.

Soviet Schools

Communist Party Decide To Teach The Three R's Without Any Frills

The Communist party has decided to cleanse Soviet schools of so-called advanced and scientific teaching methods and to restore the old-fashioned schoolmaster with complete and undisputed authority.

The teaching of pedagogy (child study) is to be abolished and all published books on that theory will be criticized severely by the official press.

The party edict followed upon a meeting of its central committee, where "scientific classifiers of children" were accused of instituting an imported bourgeois system dressed up in Marxist phraseology.

A published statement charged the purpose of their tactics was to attempt to carry out the theory of higher and lower classes and races, based on the fatalistic idea that the capacity of children depended upon biological and social factors, and their heritage.

Under the pedagogical system, the statement said, thousands of normal children have been classified as backward and segregated in special schools.

These schools are to be reorganized and most of the pupils transferred to schools for normal children. The practice of imposing "countless questionnaires and examinations" upon school children and their parents also is to be discontinued, the statement added.

Cannot Identify Soldier

Efforts Of Doctors For Nineteen Years Are Unsuccessful

What may be the last attempt to establish the identity of the "living unknown soldier," who has baffled scientists since he was taken to Paris just after the World War, is to be made by three eminent French psychologists. Nineteen years ago the man, whose name was believed to be Mangin, was found wandering in the streets of Lyons, France, dressed in soldier's uniform. He knew nothing about himself or his doings, and could not remember his name. Mangin was sent to an asylum, where he was questioned by famous doctors for year after year. Never once did they get a lucid statement from him. Meanwhile, men and women from all parts of France have claimed him as husband or father or brother. More than 200 letters have been received trying to identify him, but without success.

King Kong, the 30-foot giant ape of moving pictures, really was only a man-made toy, 20 inches tall. Trick photography made him appear as a hideous creature of enormous proportions.

Absent-Minded Professor (to secretary): "I am going down to the town and if by any chance I happen to return during my absence, keep me here till I come back."

If you think your arguments are so convincing try persuading the small boy that he ought not to have a pet dog.

FORMER CABINET MINISTER

Hon. Peter Veniot, member of House of Commons, who died at his home in Bathurst, N.B.

Greetings From Namesake

Halifax, England, Sends Parchment Roll To Nova Scotia City

Greetings extended by the borough of Halifax, in the west riding of York, England, to Halifax, Nova Scotia, were delivered in the council chamber recently.

Artistically executed on parchment, the scroll was protected by a cylindrical leather case, and was presented to Mayor Cragg.

The address came to this country aboard the giant liner Queen Mary.

Although the Empire State Building just nearly a quarter of a mile into the air, it can be swayed only one-tenth of an inch in the strong-east wind that will normally blow in New York, which is a gale of 110 miles an hour.

Crochet This Bag and Saucy Sailor

PATTERN 5343

Your Summer suit needs them—your print cries for them—these crocheted accessories which require so little time to make. If you're long for a "sailor"—crochet one from this simple pattern. Its easy stitches are clearly explained, as is its blocking. Alternate stripes of plain and rib stitch are used for hat and bag alike, the latter boasting a novel "peep-hole" top. Make the set in cotton or linen thread.

In pattern 5343 you will find complete instructions for making the set shown; an illustration of it and of the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (cash preferred) to Household Arts Dept., Winnipeg Newspaper Union, 115 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

May Sell Buckingham Palace

Offices And Business Premises Now Encircle Royal Residence

Buckingham Palace, home of England's kings and queens for many years, may be sold as a building site for \$15,000,000.

Valuers have surveyed the palace and its 40 acres of grounds, and, if it is decided to sell, part of the latter will be preserved as a public pleasure ground. It is understood a city of London syndicate is interested in the scheme.

Owing to the changing character of the neighborhood, the possibility of giving up the palace as a royal residence first was considered by the late King George. He announced that he was agreeable to the sale of the site for building purposes.

It is known that the King prefers his present bachelor home at York House, St. James.

If Buckingham Palace is sold, the "Court of St. James" would once more become an accomplished fact, and not, as now, merely a courtesy term.

A new business centre in late years has grown up around Buckingham Palace. Already offices and business premises virtually encircle it. Grosvenor Place, Grosvenor Gardens, Buckingham Palace Rd., and other adjoining thoroughfares that were given over to residential purposes until the end of the war, now have been converted into offices and business chambers.

Potatoes From Prairies

Potatoes from the prairie provinces are being marketed in Montreal, the shipments being induced by high prices prevailing. Ninety-pound bags of whites from Alberta realized \$1.65 or somewhat lower than the prices paid for Maritime stock.

SUNDAY SCHOOL LESSON

JULY 19

SOCIAL SERVICE IN THE EARLY CHURCH

Golden text: He himself said, It is more blessed to give than to receive. Acts 20:35.

Lesson: Acts 4:32-35; 6:1-7; 9:36-39; 11: Corintheans 8:1-9; 1. John 3:15-18.

Devotional reading: Psalm 112:5-10.

Explanations And Comments
Sharing Possessions, Acts 4:32-35. Commenting upon verse 33, Dr. John Gardner bids us note its true significance. Other riches, more precious than gold had been committed to the care of the apostles.

It was the Gospel of the Resurrection, the Gospel of life, of pardon, peace and joy, the Gospel of power, and this they gave as well as other things.

Among the members of the early Christian Church there was the greatest unity of spirit and purpose; as the proverbial expression has it, they were of one heart and soul; not one of them said that aught of the things which he possessed was his own; but they had all things common. Not one of them considered anything his personal property, they shared all they had with one another.

It is interesting to recall here what Aristotle wrote to the Emperor Hadrian about the Christians of those days: "They rescue the orphan from him who does him violence, and he who has given to him who has not, without grudging. And if there is a man among them who is poor or needy, and they have not abundance of necessities, they fast two or three days that they may supply the needy with their necessary food."

As need for help arose among them, those who had lands or houses sold them and brought the amount received to the apostles for them to distribute. "Laid them at the apostles' feet" is a figurative expression which denotes their control of the oriental custom of laying gifts at the feet of kings; it meant that the money was left in the apostles' control.

"There shall come a time from out this noise of strife and groaning A broader and a juster brotherhood. A deeper equality of aim, postponing A selfish seeking to the general good."

There shall come a time when each shall to another Be as Christ would have him—brother unto brother" (Lewis Morris).

Hindenburg's Trips

Comment In British Press Over Airship Crossing Great Britain

Flights of the German airship Hindenburg over strategic areas of Britain and Canada were again the topic of dubious comment in the British press.

On each of its four voyages so far, the Daily Express said, the Hindenburg has chosen different routes to cross Great Britain. It has crossed the industrial area of the Midlands and the naval shipyards along the coast of the channel.

When it was in Canada on a recent trip, the paper went on, the ship hovered for quite some time over Prince Edward Island, and the ports of Saint John and Halifax. These two ports, it was pointed out, are the only ice-free harbors in the Canadian coast, and both have dry-dock facilities capable of accommodating warships.

Construction Work

Over Nine Million Dollars Expended On New Dwellings In 1934

Although construction work in Canada, as in other countries, has been in the doldrums in recent years, a statement just issued by the Dominion Bureau of Statistics shows that in 1934, at the very cusp of the depression, expenditures on new dwellings in Canada amounted to \$9,207,913. If most of this expenditure was on modest homes, with an average value of five thousand dollars, it would account for 1,840 homes, and if these homes were built on fifty-foot lots, on both sides of the street, they would form an avenue of new buildings nearly nine miles long. More than half of this amount would be occupied by Ontario homes; Quebec would come next, and British Columbia, Alberta, Nova Scotia, Manitoba, New Brunswick, and Saskatchewan would follow in the order stated.

Of the different classes of construction work in Canada in the year under review, that on streets and highways was much the largest, amounting to over 39 million dollars. The excellent roads which beckon the tourist to Canada are among the results of annual expenditures of this nature. Other large construction classifications were factories and warehouses, government and municipal buildings, and churches, church halls, and schools. The total expenditure on new construction was almost 116 million dollars, and over 70 million dollars were spent on alterations and repairs.

Importance Of Gold Production

At Rate Of Increase, May Soon Surpass Agricultural Products

In value Hope that in another five years Canada's annual gold production would reach \$200,000,000 was expressed by Hon. T. A. Crerar, Dominion minister of mines, who, with Hon. C. D. Howe, minister of railways and canals, addressed the joint board of trade on the eve of a trip to the mining areas at Michipicoten and Goudreau.

Gold production in Canada last year amounted to \$116,000,000, said Mr. Crerar, while total value of the nation's mineral production, including both base and precious metals, was \$222,000,000.

Mining development in Ontario is helping to bridge the gap between eastern and western Canada, he said, after being introduced by T. E. Simpson, formerly chief whip of the Conservative party in the House of Commons. While he ranked agriculture first among Canadian industries, and ranked mining second, or perhaps sooner, mineral production might surpass it, Mr. Crerar said.

Italy's Policy In Ethiopia

Experts To Study The Resources Of The New Empire

Italy's policy in Ethiopia will be "no gold rush but slow, steady, well-planned concentration," said Count Giuseppe Volpi, charged by Premier Mussolini with organizing branches of industries in large groups, including technical, scientific and practical experts, to study the resources of the new empire.

Six principles will govern the development, Count Volpi said. They are:

"Adequate preparation in advance so effort and money will not be wasted. Private enterprise will be protected, but there will be no monopolies, and there will be no harmful-scarum rush of mushroom business men. No black army will be set up. The natives will be needed as workmen. The Italian race will be kept pure and every effort will be made to prevent co-mingling of the whites and blacks."

Count Volpi said economic possibilities in coffee, cotton, wool and minerals.

Long Distance Conversation

Kelvin Rogers Speaks From Philadelphia To His Father In Australia

Kelvin Rogers, three, who came to Philadelphia from Australia to have a nail removed from his lung, sent his voice 9,000 miles by wireless recently to greet his father and his dog at home.

Speaking over short wave, he told his father, listening 150 miles from Melbourne, that he was a good boy. Then he let out a lusty "cooee" to greet his dog, Briar, in the down-under manner.

To prove that the nail was really his father, listening to a mail address tray and the sound was heard in Australia.

A leader of men is one who sees which way the crowd is going and then steps in ahead

FIFTIETH ANNIVERSARY TRAIN

From the rear platform of the Canadian Pacific Railway's 50th anniversary train, The Dominion (upper oval) H. J. Main, general superintendent, Manitoba district, speaks into the microphone to the crowds assembled to cheer the jubilee event. With him are Mayor John Queen (left), Hon. John Bracken, premier of Manitoba; His Honor, W. J. Tupper, K.C., Lieutenant-Governor of Manitoba, who spoke in reply, and W. M. Neal, vice-president of the company's western lines. In giving the welcoming address, Mr. Main followed the precedent set 50 years ago, when the general superintendents met the sturdy pioneer train on its trans-Canada journey.

Below are hundreds assembled in the Sir William Whyte park, opposite the station at Winnipeg, where Premier Bracken gave a brief congratulatory address where the Countess of Dufferin, C.P.R. engine No. 1, now stands wreathed in flowers instead of smoke. In the left foreground can be distinguished Mayor Queen, Mr. Bracken, Mr. Neal and the Lieutenant-Governor and three old-time railroaders: James Gooderham, who drove the first Canadian Pacific train from Calgary to Winnipeg in 1884; J. St. Leger Maginn and Andrew Murdoch, all of Winnipeg.

LOOK WELL!

Yesterday is but a dream,
Tomorrow is only a vision,
But to-day well lived makes
Every yesterday a dream of happiness,
And every tomorrow a vision of hope,
Look well, therefore, to this day.
(From the Sonnets)
